Scope of the Position:

Under the direction of a Staff Services Manager I within the 21st Century Project, the incumbent performs tasks associated with the design, development, implementation and maintenance of the new automated Human Resources Management/Payroll system.

Duties and Responsibilities:

Candidates must perform the following essential functions with or without reasonable accommodations

Note: Proposed duties will be appropriately allocated upon selection of the identified candidate and subject to the level of appointment. The incumbent will perform specific duties that include but may not be limited to the following:

- Negotiate for changes to or for new rules and policies, as necessary, to accommodate the business functions and processes supported by the automated systems being developed or enhanced.
- Recommend and develop statewide processes that complement the automated systems being developed or enhanced.
- Perform activities to design and build the automated systems being developed or enhanced.
- Work with data processing staff to ensure business function requirements are accurately translated during program/system development. Conduct acceptance testing of the systems and system changes to ensure business function requirements and needs are met, and to achieve a smooth implementation of the system or system changes. Coordinate the implementation of new or enhanced systems and/or processes. Maintain and monitor implemented systems to ensure they operate accurately and in line with changes to laws, rules and policies, and that they continue to meet customer needs.
- Represent the State Controller's Office on various functional focus groups, task forces comprised of departmental, control agency, campus and labor union representatives.

The State Controller's Office is committed to providing equal opportunity to all regardless of race, color, creed, national origin, ancestry, sex, marital status, gender, disability, religious or political affiliation, age, or sexual orientation.

Desirable Qualifications:

- Experience in or knowledge of the state's personnel management program (e.g., state classification and compensation plan, position management, worker's compensation, etc.);
- Experience in or knowledge of the state's human resources functions (e.g., personnel, payroll, position management, benefits, timekeeping, etc.);
- Strong analytical abilities;
- Experience in or knowledge of systems development and implementation;
- Excellent communication skills;
- Excellent organization and research skills with attention to detail;
- Knowledge of project work;
- Ability to understand and learn data processing and system-oriented concepts and languages;
